

Tawakoni and Fork Reservoirs

This loop is close to Dallas and it's a quick escape from the urban mayhem. Starting from east Dallas the ride continues east through Quitman and then returns through Emory and across Lake Tawakoni back to Dallas. Good twisties are separated by long straights. Watch for the lumbering and possibly dangerous *truckus pullaboatus* that lurk on the roads near Lake Tawakoni.

The highlights of this loop are the curves on FM 2948 and the scenic twisties through the woods on FM 69.

ALONG THE WAY

- Stop for a swim at **Lake Tawakoni State Park**, take FM 2475 at Wills Point.

POINT-TO-POINT

Approximately 219 mi.
